EMPLOYEE-CENTEREDNESS

- EBPH-EC 1: Employee Empowerment
 - EBPH-EC 1-1: Employee Engagement

IT CAPABILITY EVALUATION

- EBPH-IT 1: Data Management
 - EBPH-IT 1-1: Data Use

Re: New Regulatory Compliance Standard

Dear URAC Prospects and Clients,

As the nation's leading health care accreditor, URAC values patient care and safety first. When we discover an improvement opportunity that could enhance patient safety within our standards, we work quickly to incorporate the additional knowledge into our programs.

Therefore, URAC has introducing a new regulatory compliance Standard. Effective immediately, this new Standard will apply to all current, non-deemed applications, accreditations and certifications. Although we expect immediate compliance with this Standard, we will not be asking for any additional documentation at this time. As new versions of programs are released, this Standard will be built into the program requirements and documentation will be submitted on Desktop.

Attached you will find the Standard language (see Attachment A). As a requirement of this Standard, organizations must remain in good standing with any issuing body/agency for all permits, licenses, registrations and/or charters held by the organization. If at any time during the accreditation or certification cycle this Standard is identified as "Not Met," the finding(s) will be presented to the Accreditation Committee for review and final determination of status.

If you have any further questions, please reach out to Product Development Department at productdevelopment@urac.org.

Sincerely,

Jenn Richards, PharmD, JD, CSP

Product Development Principal

Email: productdevelopment@urac.org

Attachment A: URAC's New Regulatory Compliance Standard

Standard: Regulatory Compliance

The organization maintains compliance with applicable jurisdictional laws and regulations.

Regulatory Compliance

The organization:

- a. Maintains compliance with applicable laws, regulations and requirements from any relevant jurisdictions
