URAC HEALTH CARE AI ACCREDITATION

AI is transforming health care, and the need for trust, accountability and safety has never been greater. URAC's new Health Care AI Accreditation is the first of its kind, designed to give health care organizations and developers the independent validation they need to lead with confidence.

TWO ACCREDITATION TRACKS

WHAT URAC LOOKS FOR

HEALTH CARE AI USERS (hospitals, health systems, payers, providers)	HEALTH CARE AI DEVELOPERS (vendors, developers, data scientists)
• AI governance • Clinical oversight • Data privacy and security • Bias mitigation • Workforce training	• Transparent design and deployment • Model risk management • User education • Responsible innovation • Patient safety

WHY IT MATTERS

- Builds trust with patients, clinicians and partners
- Aligns with evolving state and federal regulations
- Promotes equity and transparency in AI deployment
- Differentiates your organization in a competitive field

Built with National Experts Our standards were developed by a diverse committee of health care and tech leaders, from organizations you already know and trust: Verily, Pfizer, Northwell Health and MD Anderson Cancer Center.

READY TO LEAD IN HEALTH CARE AI?

Earning URAC's Health Care AI Accreditation is your organization's opportunity to demonstrate readiness, responsibility and a commitment to safer, smarter technology.
